Hello!

My name is Bintang and I am a student in the **Software Engineering Technology** at the State Polytechnic of Banyuwangi.

Apart from that I am a **freelance graphic designer**.

For the past 3 years, I have been creating unique and charming designs using software such as **Adobe Photoshop**,

Adobe Illustrator, **Figma** and **CorelDRAW**.

I have skills in typography, a strong understanding of visual communication, and a focus on user experience.

brand design

"Ditya Collection" is a clothing shop brand that has just been established and is not yet known to the wider public, and usually the majority of this shop's customers still come from rural communities. Therefore, clients are asked to create a logo for their clothing shop, with the aim of making customers more interested and confident in shopping at the clothing shop.
